

# Hygienic measures in Schloss Biesdorf

Dear visitors,

To ensure your safety and that of our employees, please observe the following rules:

## **General information**

The exhibition areas and the café in Schloss Biesdorf are open.

Due to the maximum number of visitors allowed in the building, waiting times are possible.

## **Mouth and nose protection**

Wear a medical mask in all areas of the house. Children up to the age of 6 years (no mask) are exempt from this requirement.

If you have taken a seat at events or in the café, you can remove the mouth-nose cover.

We would like to point out that you are at increased risk of infection if you are unable to wear mouth and nose protection for health reasons.

## **Keep your distance**

Please observe the distance requirement of at least 1.5 metres and avoid forming groups in all rooms. Please also observe the maximum number of visitors per room as indicated on the signs.

## **Cough and sneeze label**

Even if you wear a mouth-nose cover – cough or sneeze into the crook of your arm.

## **Wash your hands**

Please wash your hands at the beginning of your visit. The washrooms are signposted.

## **Avoid surface contact**

Please do not touch any exhibits.

## **Symptoms of illness**

If you have had contact in the last 14 days with someone suffering from COVID-19 or if you yourself suffer from an upper respiratory tract infection, please stay at home and visit us at a later date.

Please follow the instructions of the supervisory staff. The house rules apply.

Enjoy your visit to the exhibition.
